

## WHO WE ARE

HOPE Cape Town is a holistic development agency established in 2001 whose services and programmes are focused on assisting individuals and families living in marginalised communities to reach their full potential and live their best and healthiest lives.

## OUR ORGANISATION

HOPE Cape Town is a registered non-profit organisation based in Cape Town whose holistic cycle of life approach focuses on pregnancy to career path, early childhood development, youth, training and education and sustainable livelihoods.

HOPE Cape Town is a flexible and dynamic organisation in the sense that it responds to the ever-changing South Africa context and to the needs of its clients. Annually, more than 200,000 people are direct recipients of medical treatment and care, counselling and social services, training and development, education and empowerment provided through the organisation's various projects. HOPE Cape Town contributes to life changes in its beneficiaries by bridging the gap between grassroots and science through formal partnerships with local facilities and institutions.

## Our mission

HOPE Cape Town strives to improve the quality of life of children, youth and families affected by HIV, social challenges and related conditions and assists them to reach their full potential.

## Our Values

### Focus:

- Hands on Child & Family support
- Medical Research & Clinical Work
- Awareness / Prevention / Training
- Education and Skills Development
- Community Development and Interventions

### Transparency:

- Verifiable results through monitoring and evaluation
- Successful local and international partnerships since 2001
- We are independently audited each year and publish the results of this audit.
- Continuous reporting through social media and newsletters

### Innovation:

- At the forefront of establishing an HIV/Aids framework with international partners
- We invented the model of Community Health Workers in clinics in 2002
- We were the second organization to introduce ARV treatment to children in 2002
- Bridging gaps between grassroots & science in the fields of HIV
- Cycle of Life approach
- Early childhood development / 1st 1000-day interventions in under resourced communities
- Timely diagnosis, support and care for children with neurodevelopmental delays

## Structure

Responsible for raising funds and ensuring sustainability of the organisation through effective oversight.

Working arm which implements and monitors all outreach programmes.

Encourages exchange of ideas, learning and collaboration while promoting our cause in the USA giving donors the opportunity to support our many programmes.

Our German trust which enables our German donors to support us and is also responsible for our premier international event, HOPE Gala Dresden.
